Fast wireless Bluetooth connection

It can be easily connected to Bluetooth devices such as mobile phones, tablets, and computers

Easily cover the entire room

The power determines the quality of the sound, but also determines the coverage of the sound, the high-power coverage is large, the sound output is powerful and textured, and it can easily cover a room of more than 100 square meters.

Built-in four Full-screen speakers

the left-right symmetrical channel structure counteracts the vibrations caused by the sound, ensuring the balanced output of sound on both sides, you can experience the live feeling of home audio.

GREAT COMPATIBILITY

Applications:

TV Soundbar Speaker is a perfect choice for music lovers, providing powerful and clear sound that is ideal for your home entertainment. With its built-in Bluetooth connectivity, you can wirelessly connect your music and movies to your soundbar. It also features RCA, 3.5mm Aux, TF Card and other audio inputs for better sound control.
